

We'd have if there wasn't anyone to continually take all the joy out of life. Just about the time we had concluded to stop worrying, along comes an astronomer who predicts that in 2,000,000 years all the earth will sink into the sea, thereby drowning every mother's son of us.

But when we stop to ponder over it, we should worry about what will happen 2,000,000 years from now. In the mean time we grasp this golden opportunity. Such an opportunity is a \$1500 offer of U.S. L. Batteries. The chance of a lifetime for every autoist. We also repair your batteries to your satis-

# To Those Who Judge Quality by Price

The quality of Ford cars cannot be judged by the prices at which they are sold—because Ford prices are made possible by conditions that are absolutely unique in the automotive industry.

From mine to market the Ford car is the work of a single organization. The Company owns and operates the mines and forests that furnish the raw materials for its products. This material is carried over Ford transportation routes, fabricated in Ford mills, manufactured in Ford plants—and the finished product is sold to the public through Ford dealers.

The following statement, previously made in an advertising message, is repeated because of its significance to the public:

"If any other manufacturer endeavored to produce a car similar to the Ford, according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design, it would be impossible to offer it at any-thing like Ford prices. And it is well to note that even with less costly design they have not met Ford prices."

## List of Qualified Voters of Coffee County, Ala.

THE STATE OF ALABAMA, COFFEE COUNTY.

I. J. A. Carnley, Judge of Probate in and for Coffee County, Alabama, do hereby certify that to the best of my knowledge, information and bethe Tax Collector, the same-being an alphabetical list of the qualified electors registered by precincts and who have paid poll taxes due as appears from the Tax Collector's reports on file. This list will constitute the list of qualified electors who will be entitled to vote in any elections held in said County of Coffee from the time of such publication to May 1, 1927. This list is also notice that any voter duly registered and who has paid poll taxes due and who is legally entitled to vote shall have ten days from this publica-County which may not be correct and names may have been inadvertently omitted, and I am asking all legal voters to make known to me as required by law in the event their names have been left off. Supplemental list will be published by the first day of May, 1926, carrying the names of such other qualified voters as may have been left off if proper proof is submitted to me. This April 9th, 1926.

# Vital Factors in the Progress of Alabama

DEVELOPMENT of Alabama's hydro-electric power has been one of the greatest factors in

recent years in the development of Alabama. Alabama Power Company has made available to industries, commerce, farms and homes, in Alabama, the vast power of our streams.

The power company has brought conservation where formerly there was waste. It has spent millions in Alabama. It has made this state a land of opportunity, attracting nation wide attention.

There is another source of power in Alabama equally as necessary to its progress as electricity—the power of Alabama's capital resources.

Alabama is now entering the financial period of its economic life—the period when the development and conservation of its money power is necessary Reproduced by Alabama Power to its future prosperity. Company from

The time has come to dam up the flow of funds from the South to other sections and to create here a reservoir of capital, a powerhouse of money to serve the industries, commerce, farms and homes of this great section.

This is the purpose of the

A Southern Company---Growing Like the South!

We'd have if there wasn't anyone to continually take all the joy out of life. Just about the time we had concluded to stop worrying, along comes an astronomer who predicts that in 2,000,000 years all the earth will sink into the sea, thereby drowning every mother's son of us.

But when we stop to ponder over it, we should worry about what will happen 2,000,000 years from now. In the mean time we grasp this golden opportunity. Such an opportunity is a \$1500 offer of U.S. L. Batteries. The chance of a lifetime for every autoist. We also repair your batteries to your satis-
